

K-Tech High Speed Compression Adjuster Features & Benefits

- 60 clicks of low speed compression adjustment range
- 40 clicks of highspeed compression adjustment range
- 8 clicks per turn, meaning very fine and wide range of adjustment
- Tailored to suit the application and linkage motion ratio
- Optimised internal pressure balance
- Improved hysteresis/reaction time
- Black and Kashima brown anodised & laser etched finish

ISOLATED COMPRESSION ADJUSTER FORCE
